MATERIALS

Major components are 50% de-inked recycled wastepaper, 50% Elemental Chlorine Free (ECF) new fibre, filler (calcium carbonate) and starch.

TECHNICAL INFORMATION

The table below displays typical values.  
Test climate: RC @ 50% RH, 23°C.

MARYVALE MILL

As Australia’s largest integrated fine paper-making complex, Maryvale Mill produces around 600,000 tonnes of paper every year. The Maryvale Mill is one of the largest employers in the Latrobe Valley with around 850 direct employees and many more supported indirectly through the Mill’s activities.

FUN FACTS ABOUT REFLEX

- The Reflex brand was launched in 1984 and was the first paper brand in the world to be advertised on TV.
- Australian Paper’s Maryvale Mill is the home of Reflex and first opened for operations in 1937.
- Reflex is produced at the rate of approximately 60kms per hour on the M5 paper machine at Maryvale Mill.
